Sigrid Schreiner, MHA, CMPE

Vice President, Reimbursement Strategy & Solutions, Xcenda

Sigrid Schreiner provides national leadership for Xcenda's strategic reimbursement consulting services including strategic reimbursement planning, payer policy analysis and payer advocacy efforts for Medicare, Medicaid and private payers. She leads the development of tailor-made access and value strategies for biologics, pharmaceuticals and devices designed to drive product commercialization in a market where change is the norm. Pre-and post-launch, Ms. Schreiner partners with clients to implement specific product pull-through programs for expanding patient access. Prior to joining Xcenda, she held positions at biotech and pharmaceutical companies directing reimbursement and health policy strategy. As a senior manager for an international management consulting firm, Ms. Schreiner worked with managed care plans to create physician, care management and operational strategies. Ms. Schreiner is a Certified Medical Practice Executive with the American College of American Medical Practice Executives and has previously received Modern Healthcare magazine's "Up and Comers Award."
